
Press Release

Cynature Networking & Consulting Inc. is pleased to announce their partnership with Arizona State University to pursue research and development opportunities with the Office of Naval Research.

Tempe, AZ, April 5, 2010: Cynature Networking & Consulting Inc. announced today that they have entered into an agreement to provide engineering support and services to Arizona State University (ASU) in support of a grant with the Office of Naval Research (ONR).

In collaboration with consultants at Cynature Networking & Consulting Inc., assistant professor at Arizona State University, Dr. Dijiang Huang received the 2010 ONR's Young Investigator Program (YIP) Award. Only 17 junior faculty in the entire country received this award this year. For more information on the YIP Award, please visit the website: <http://www.onr.navy.mil/Media-Center/Press-Releases/2010/Young-Investigator-2010.aspx>.

Cynature Networking & Consulting Inc. will support the researchers at ASU to introduce leading-edge technologies and applications from the testing environments to the classroom. The technologies include mobile wireless networking, intrusion detection, wireless surveillance systems, and mobile Cloud computing.

Arizona State University (ASU/the University) is one of the premier metropolitan public research universities in the nation. ASU is research-driven but focused on learning - teaching is carried out in a context that encourages the creation of new knowledge. ASU maintains a tradition of academic excellence in core disciplines and has become an important global center for innovative interdisciplinary teaching and research.
